Woodland Hills Nature Park

If you've enjoyed your tour of our beautiful Heritage Park, you would equally enjoy our Woodland Hills Park as well. Woodland Hills, "A Nature Park", features a primitive walking trail winding through the 74 acre park. The focus of this park is to allow quiet observation of birds and animals in a variety of habitats. Meadows, hardwood forests, ponds, rivers, and creeks are all part of the natural wonders of this park, which is located on the west side of Farmington Road just south of I-696.

Nature Discovery Center

The City of Farmington Hills is extremely proud of its new nature interpretive discovery center located in beautiful Heritage Park adjacent to the Day Camp Building. This new 2,325 square foot facility is a joint creation of the *City of Farmington Hills and Farmington Public Schools*. Come and explore the unique and informative displays and exhibits reflecting our natural world that surrounds us. Our nature interpretive staff will be available to answer any questions you may have.
