CLEC competitive local exchange carrier   **PCO** private cable operator   **MSO** multiple system operator

ILEC incumbent local exchange carrier   **ELCO** electric utility cooperative   **MUNI** municipality owned/operated

Michigan Fiber Optic Broadband Providers: *32 providers match your search criteria*

- **CLEC - Competitive Local Exchange Carrier**: a company that competes with the already established local telephone business

- **ILEC - Incumbent Local Exchange Carrier**: a telephone company that was providing local service when the Telecommunications Act of 1996 was enacted

- **PCO - Private Cable Operator**: a private small independent cable company typically offering services to multi-family dwellings, gated communities, hotels and other small businesses

- **ELCO - Electric Utility Cooperative**: originally formed to bring electricity to rural households when investor-owned utilities were not interested

- **MSO - Multiple System Operator**: Multiple system operators (MSO) are operators of multiple cable television systems

- **MUNI - Municipality Owned/Operated**: broadband Internet access services provided either fully or partially by local governments
