

## **Club Z Tutoring**

The Farmington Hills/Club Z partnership allows students to get extra help with their classwork. From students who are struggling, to students who just need time to finish their homework, Club Z provides support to all. During the afterschool program, the tutor will help each student overcome difficulties and dive deeper into the material the student is currently learning.

While the program will run during the school year, the tutoring doesn't have to stop there. Club Z provides customized 1:1 Tutoring In-Home or Online/Virtually. Over 50 subjects and areas of study are offered, from basic reading comprehension, math, to advanced AP-level, Foreign languages, STEM subjects, and ACT/SAT test prep.

Club Z ! Michigan has been in business for over 20 years.

Club Z features a proprietary system that matches a Student, their needs, and learning styles to the Tutor, resulting in elevated test scores, subject retention, measurement, and learning enhancement in a non-cookie-cutter format, emphasizing each Student's unique ability and learning style.
